INTRODUCTION

Enthusiastic and efficient software developer with strong expertise in React.js and solid knowledge of the MERN stack. Experienced in developing responsive, user-friendly applications and integrating image processing and machine learning models. Passionate about applying AI and automation solutions, while continuously expanding skills in emerging technologies.

EXPERIENCE

ETHNUS – Infosys Foundation — MERN Full Stack Training *July 2025 – Present*

- Completed MERN stack training covering MongoDB, Express.js, React.js, and Node.js for full-stack development.
- Built responsive and scalable web applications with practical deployment knowledge.

Full Stack Development Intern – R3Sys *June 2025 – July 2025*

- Hands-on training in web application development using the Spring Framework with emphasis on MVC design.
- Gained practical experience in designing, building, and deploying full-stack applications with frontend-backend integration.

Zensar ESD Training Program *Jan 2025 – Feb 2025*

- Practical training in Core Java, Advanced Java (JDBC, multithreading), Python scripting, and SQL.
- Strengthened skills in object-oriented programming, database design, and solving real-time coding problems.

PROJECTS

RideNex – Next-Gen Ride-Sharing Platform  [Repo](#)

- Ride-sharing web app with real-time tracking and secure payments.
- Features: authentication, ride booking, GPS, payment integration.
- Tech stack: **React.js, Node.js, Express.js, MongoDB, Google Maps API.**

RescueNet – Animal Rescue Management System  [Repo](#)

- Web platform for reporting, tracking, and managing rescue cases.
- Includes volunteer management and admin dashboard.
- Tech stack: **Spring MVC, JSP, Hibernate ORM, MySQL.**

StorePulse – Product Rating and Review System  [Repo](#)

- Intelligent product rating platform for analyzing customer feedback and displaying structured insights.
- Features: rating analytics, product listing, review management, backend API integration.
- Tech stack: **React.js, Node.js, Express.js, MongoDB.**

SKILLS

Web Development:	HTML5, CSS3, JavaScript (ES6+), React.js, Responsive UI Design
Programming Languages:	Java (Core), Python, C, JavaScript
Full-Stack:	MERN Stack (MongoDB, Express.js, React.js, Node.js)
Computer Vision & ML:	OpenCV, Image Processing, Basic Machine Learning
Databases:	MySQL, MongoDB
Tools & Platforms:	Git, GitHub, VS Code, Postman
Soft Skills:	Problem-Solving, Team Collaboration, Adaptability, Continuous Learning

EDUCATION

R. C. Patel Institute of Technology, Shirpur	B.Tech in Data Science	CGPA: 7.12/10
D.D.S.P Junior College, Erandol	Higher Secondary Education	71%, May 2022

COMPETITIONS

Smart India Hackathon 2024 *August 2024*

Participated in the national-level Smart India Hackathon with a project on a **Crop Disease Prediction App**, integrating machine learning for early detection and advisory support to farmers. Worked on dataset preprocessing, model integration, and MERN stack-based application development.
